

Atailay Sahin

Gameplay Programmer

Phone: 576 871 776

Email: sahinatailay3506@gmail.com

Address: Warsaw / Poland

Portfolio: <https://atathesahin.github.io/>

PROFESSIONAL SUMMARY

Digital Game Design graduate specializing in technical game design. I bridge the gap between creative concepts and functional code by scripting core mechanics in C#, designing immersive 3D levels, and managing the full asset pipeline. My focus is on building balanced, polished, and engaging player experiences from the ground up.

PROFESSIONAL EXPERIENCE

Vision 4 Fun Internship (2024–2025) Istanbul, Turkey

Game Development Intern

- Developed and optimized an interactive 3D mobile game using Unity.
- Architected a dynamic enemy spawning system and AI behaviors to enhance gameplay flow.
- Implemented core interaction mechanics and responsive touch controls for mobile platforms.
- Integrated monetization frameworks (Ad systems) to support the game’s economy.

EDUCATION

Istinye University (2021 – 2025) Istanbul, Turkey

Digital Game Design

Digital Game Design graduate specializing in technical game design. I bridge the gap between creative concepts and functional code by scripting core mechanics in C#, designing immersive 3D levels, and managing the full asset pipeline. My focus is on building balanced, polished, and engaging player experiences from the ground up.
